They have proven time and again to be the best in their industry. In the event of a property claim, you may contact them directly, or as always, contact us and we will dispatch ACR to your assistance."

All the best,

Dan Sergi

November 2011

ACR - Disaster Mitigation

There are few things more devastating to a property owner than suffering damage due to a disastrous event. Even though the loss is covered by insurance, that may not mean the restoration will be done correctly, quickly and with minimal disruption.

ACR has been providing property damage mitigation and restoration for over twenty-five years and delivers on their promise to be "The Painless Restorer." Whether it's water or fire/smoke damage, wind damage clean up, mold remediation or trauma scene/biohazard recovery, ACR operates using top level protocol and restoration industry best-practices set forth by the industry's governing bodies, IICRC, RIA, as well as OSHA and the EPA. They boast the highest certifications and qualifications as a company and for individual staff. In fact, ACR is approved by the Illinois Department of Insurance (and 10 other states as well) as a provider of continuing education.

ACR's "No Conflict of Interest" Service Policy states that they are a "mitigation-only" restoration company. This means that instead of walking into a property and tearing out structure and contents, all efforts are focused on saving as much as possible through the latest specialized drying techniques. Your damaged property will be returned to pre-loss condition faster, and with minimal interruption to your daily life. "Full service" restoration companies that stand to profit more by *replacing* wet flooring, walls, etc. also achieve pre-loss condition, but at a far higher cost, and taking a much longer time too. There are times when reconstruction is genuinely called for, but so often, it is an unnecessary hassle the property owner could have avoided.

Complete communication and reliability round out ACR's outstanding performance to be a wise choice indeed should any of these disasters affect you and your property. You will be impressed at a time you need to be.

ACR can be reached 24/7/365 at 866.645.1165.
